**ABACUS (10 BY 10)**

Abacus is a simple device for calculating, consisting of a frame with rows of wires or sticks along which beads are slid. Abacus helps teach maths skills, patterning and colour recognition. Counting and moving the beads on this wooden frame develops a visual and tactile relationship with numbers and early math concepts.

Beautiful Wooden Learning Toy – in natural wood and coloured, a nostalgic Learning Toy for toddler, designed to develop Lacing and sewing skills. The end of the thread is provided with wooden needle for easy gripping in small hands. This makes the sewing easier and transforms the experience into a friendly and inviting challenge. These toys help to learn and improve fine motor skills while building an understanding of basic sewing skills.
